ALLORGANIC® BOTTLE WASH

Cleaning can be simple and safe for your baby. ALLORGANIC® Bottle Wash cleans bottles effectively without leaving a residue and is specially formulated with sunflower and olive oil.

OUR STORY

ALLORGANIC® products are the good work of an organic farmer who teamed up with three chemists, two product development specialists, and one nature-inspired designer. We are proud to develop our line of certified organic cleaning products, all made with food-grade, non-GMO, non-toxic ingredients. We don't use synthetic solvents, preservatives, dyes or perfumes. Nor do we use parabens or sulfates. Our products are biodegradable, not tested on animals, and packaged in recyclable bottles.

WHY ORGANIC MATTERS

Our lives are full of surfaces that come into contact with contaminants every day: our hands, our clothing, our foods, our dishes, our countertops. To provide clean, healthy homes for our families, it's important to keep those surfaces free of harmful residues. ALLORGANIC® offers kitchen, laundry, baby and household cleaning products all fabricated in accordance with the USDA National Organic Program. This means that we follow production methods that foster responsible resource use, promote ecological balance, and conserve biodiversity. We never use synthetic fertilizers, sewage sludge, irradiation, or ingredients derived from genetically modified organisms (GMOs). We believe organic matters because when you start with clean ingredients, you get the cleanest products.

To learn more about the USDA National Organic Program, visit www.ams.usda.gov

NO RESIDUE.

ALLORGANIC® Bottle Wash is sunflower and olive oil based which is efficacious and soothing for most skin types.

Gentle for the planet. Plant based, biodegradable, safe for septic and greywater systems.

INGREDIENTS:

Purified Water, Organic Glycerin, Organic Potassium Sunflowerate (organic sunflower oil soap), Organic Potassium Oliviate (organic olive oil soap), Organic Aloe Vera, Organic Ethanol, Potassium Hydroxide

DIRECTIONS:

ALLORGANIC® Bottle Wash is made for hand washing of baby bottles, dishes, utensils and breast pump accessories. Twist pump open. For best results, do not dilute in water. Pump directly onto rinsed bottle, dish, utensils or breast pump accessories or pump onto damp cleaning tools, such as a sponge or brush, and then clean thoroughly. Provide agitation to help remove soil. Rinse with clean potable water. For heavily soiled items, add additional detergent as required. Sterilize as required.

SHELF LIFE:

3 years

ALLORGANIC® CLEAN

We provide full ingredient disclosure. We're happy to tell you that our products are made without 1,4-dioxane, chlorine, diethanolamine, formaldehyde, glycol, paraben, phosphates, phthalate, propylene glycol, optical brighteners, sodium laureth sulfate, sodium lauryl sulfate, sulfates, synthetic dyes, or synthetic perfumes.
