# ALLOORGANIC® GLASS & SURFACE CLEANER

**ALLOORGANIC® GLASS & SURFACE CLEANER** is ideal for use on glass or any hard, non-porous surfaces in your kitchen, bathroom, and around the home. It can be used on multi-surfaces such as glass, mirrors, counter tops, sinks, walls, tables, chairs, appliances, toilets and showers.

## OUR STORY

ALLOORGANIC® products are the good work of an organic farmer who teamed up with three chemists, two product development specialists, and one nature-inspired designer. We are proud to develop our line of certified organic cleaning products, all made with food-grade, non-GMO, non-toxic ingredients. We don't use synthetic solvents, preservatives, dyes or perfumes. Nor do we use parabens or sulfates. Our products are biodegradable, not tested on animals, and packaged in recyclable bottles.

## WHY ORGANIC MATTERS

Our lives are full of surfaces that come into contact with contaminants every day: our hands, our clothing, our foods, our dishes, our countertops. To provide clean, healthy homes for our families, it's important to keep those surfaces free of harmful residues. ALLOORGANIC® offers kitchen, laundry, baby and household cleaning products all fabricated in accordance with the USDA National Organic Program. This means that we follow production methods that foster responsible resource use, promote ecological balance, and conserve biodiversity. We never use synthetic fertilizers, sewage sludge, irradiation, or ingredients derived from genetically modified organisms (GMOs). We believe organic matters because when you start with clean ingredients, you get the cleanest products.

To learn more about the USDA National Organic Program, visit <http://www.ams.usda.gov/>

### SAFE.

Children and pets should be able to play outside and get dirty. They are washable and so is the mess they make!

Bio-based. No synthetic solvents, dyes, or perfumes. This certified organic product does not contain GMOs.

### INGREDIENTS:

Purified Water, Organic Acetic Acid, Organic Ethanol, Organic Sapindus Mukorossi Extract (organic soapberry), Organic Glycerin

### DIRECTIONS:

Twist to open spray nozzle. Apply to surface, or moisten cleaning cloth, and then wipe clean. For surfaces that may be delicate, test in an inconspicuous area. Not recommended for concrete or unsealed surfaces. Not for use on granite or marble.

### SHELF LIFE:

2 years

## ALLOORGANIC® CLEAN
